

# CODE FOR ATHENS UX MAP

NEW MEDIA CAPSTONE | FALL 2021

JACKIE JEFFERSON, JESS L'HOMMEDIEU, JORDAN MCGUIRE,  
HEATHER MCABEE, & MOLLY SHAPIRO

# USER PROFILES

## STUDENT

Students, including high school and college students, will be able to volunteer at Code for Athens. Not only will they be helping Code for Athens, but they will be able to improve their coding skills as well. The largest segments that Code for Athens will target within students are those interested in computer science, programming and technology. We will market the organization to programs at schools and colleges to attract volunteers.

## VOLUNTEER

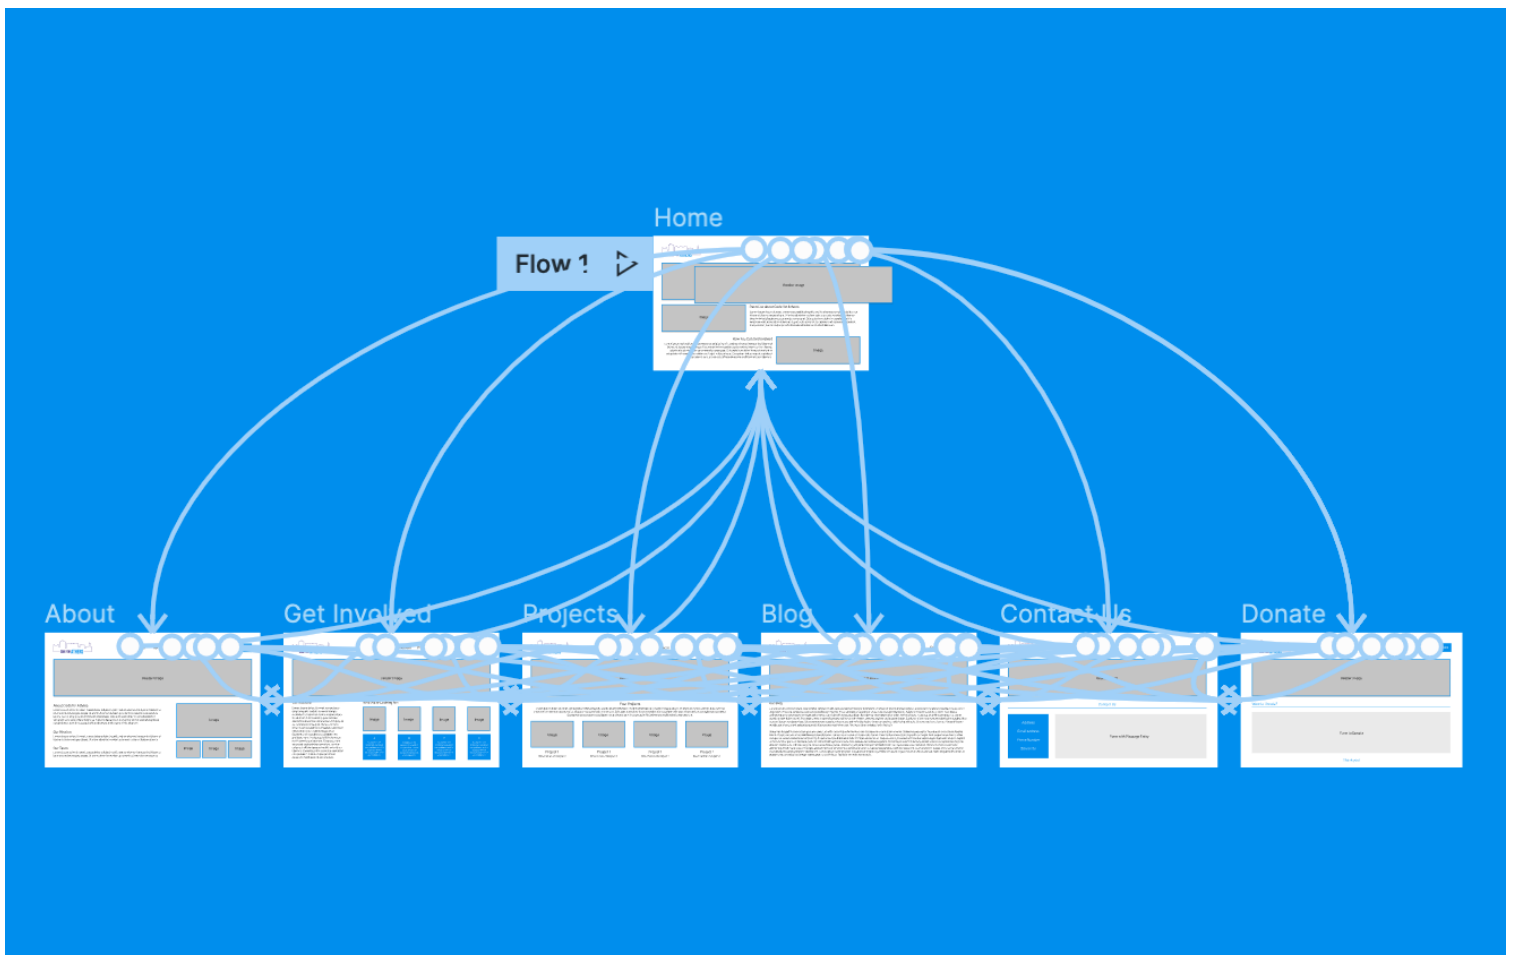

Code for Athens will welcome local volunteers who are interested in helping the community. Volunteers do not have to be experienced at coding and they will still be able to help. The events will educate volunteers on current issues as well as technology practices. We will market Code for Athens to organizations and clubs within the local Athens area in order to find people who want to get involved.

## EXPERIENCED CODER

Experienced coders will be a tremendous help to Code for America. With their expertise, they will be able to help the organization and teach other volunteers. To find experienced coders, we will contact schools and colleges as well as companies in the technology field and other fields. We will reach out to groups for coding and connect with the network of experts in the Athens area. Code for Athens will allow experienced coders to further advance their skills while helping their community.

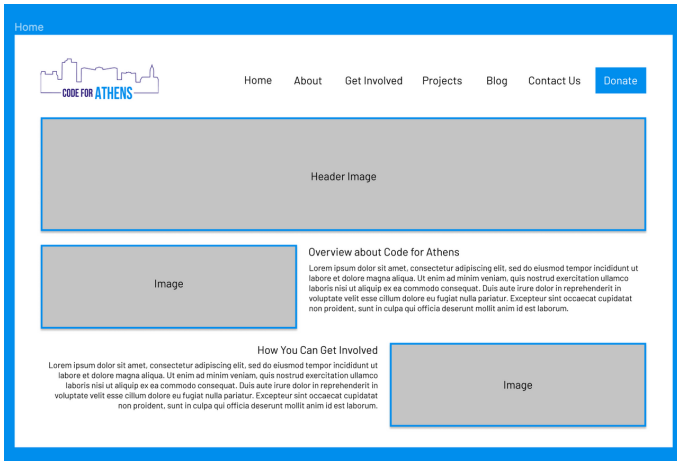

# UX MAP

Code for Athens' website will be comprised of 7 pages: Home, About, Get Involved, Projects, Blog, Contact Us, and Donate. The flow of the website is simple, as each page will only consist of information and images, or the page will also include a form to fill out to contact the organization or donate to it.

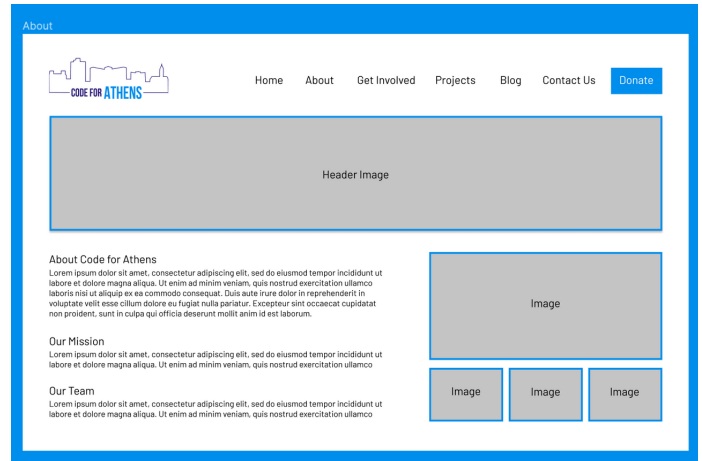

# UX MAP

## HOME

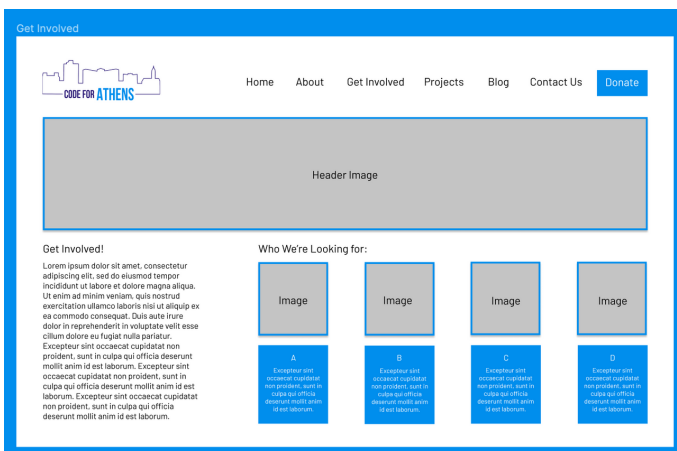

The "Home" page will include an overview of Code for Athens, information on how to get involved, and images.

## ABOUT

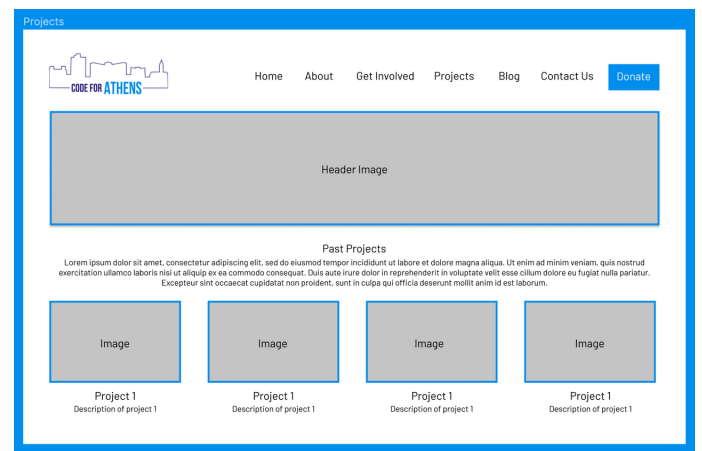

The "About" page will include information about Code for Athens, its mission and the team, as well as images.

## GET INVOLVED

The "Get Involved" page will feature examples of people who can help Code for Athens, and talk about the opportunities to get involved.

## PROJECTS

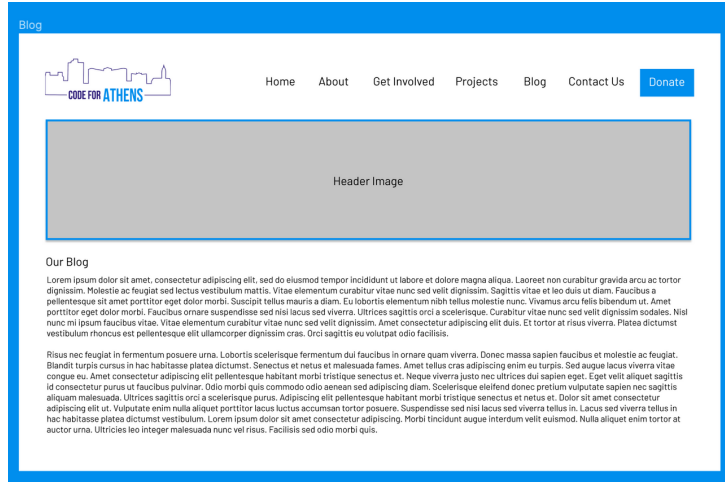

The "Projects" page will show projects that Code for Athens has completed along with a description of each one.

# UX MAP

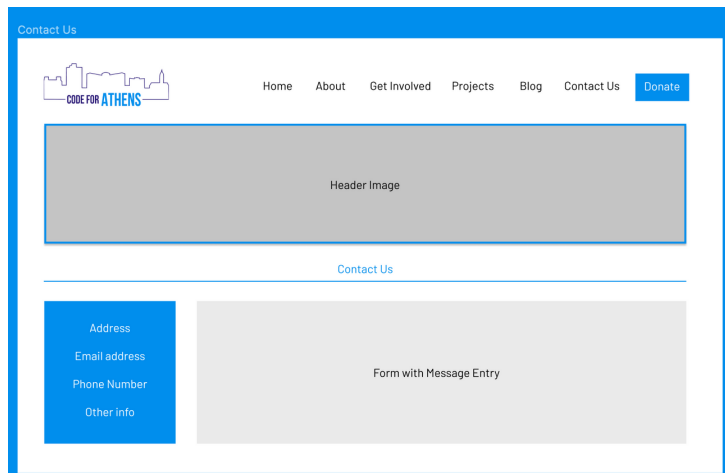

## BLOG

The "Blog" page will feature the Code for Athens blog, written by the team and volunteers, which will be about their experiences and opportunities.

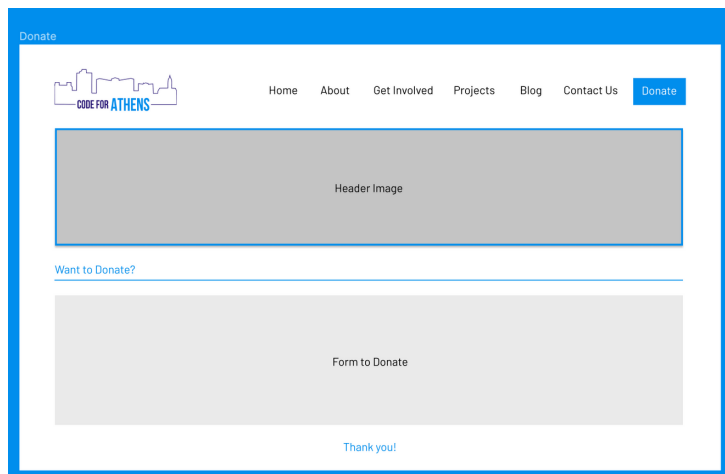

## CONTACT US

The "Contact Us" page will provide the contact information for Code for Athens as well as a contact form to send a message.

## DONATE

The "Donate" page will be a form for people to donate to Code for Athens and its events.
