LEARNSat is built in WordPress. Prospective developers can follow this guide in order to import the LEARNSat site: https://wordpress.com/support/import/import-using-all-in-one-migration/

STEPS

1. Ensure the ***All-in-One WP Migration*** plugin is installed.
2. Select ***Import > Import From File*** and upload the provided ***learnsat_site.wpress*** file
3. The site has been successfully imported. Good luck!
